

LED High Bay Light

Bright Moon Series-DOB Version

Suitable for Factory, Warehouse, Basketball court, Supermarket.

Features

- Super thin light design, easy to install and transport.
- Die-casting aluminum heat sink, strong air convection current for heat sink.
- IP65 level waterproof and dust-proof, strong environmental adaptability.
- Professional optical lens, the light is even and bright.
- Optional aluminum reflective cover, to concentrate light and prevent vertigo.

Basic Parameters

Model	Power	Input Voltage	CCT	Beam Angle	Efficacy(lm/W)	PF
GP-QMX-0100-E01	100W	220-240VAC	6000k	60° /90° /120°	100LM/W±10%	> 0.9
GP-QMX-0150-E01	150W					
GP-QMX-0200-E01	200W					
GP-QMX-0300-E01	300W					

Multi-scenario Application

LED High Bay Light

Bright Moon Series-Driver Version

Suitable for Factory, Warehouse, Basketball court, Market.

Features

- Super thin light design, easy to install and transport.
- Die-casting aluminum heat sink, strong air convection current for heat sink.
- Integrated optical lens, meeting demand of professional light distribution.
- High quality LED light chips, the quality of light is fresh and bright.
- Famous brand driver built-in inside, stable and reliable performance.
- Optional light concentrated to prevent vertigo, improve the performance of lighting.

Basic Parameters

Model	Power	Input Voltage	CCT	Beam Angle	Luminous Efficiency	PF
GP-MY-0100-N01	100W	100-277VAC	5700k	60° /90° /120°	150LM/W±10%	> 0.9
GP-MY-0150-N01	150W					
GP-MY-0200-N01	200W					
GP-MY-0300-N01	300W					

Application Scenarios
